OSCAR

DATABAR
CORPORATION

OSCAR™ is a low-cost, high-speed optical scanner for use as an input device for most popular home computers. It requires no special adaptors, peripheral expansion modules or other high-cost interface hardware. It is fully supported with an extensive library of BASIC programs which will be published in bar code form in the monthly DATABAR magazine or which will be supplied individually to retail stores. OSCAR™ eliminates the time-consuming use of the keyboard for entering programs. A typical program can be entered, error-free, in a few minutes. High quality materials and workmanship, combined with a rugged reliable design, insure long-life and error-free use. OSCAR™ adds a new dimension to the term "user-friendly."

OSCAR™ is compatible with these popular home computers..
* Atari 400®
* Atari 600®
* Atari 800®
* Atari 1200XL®
* Atari 1400XL®
* Atari 1450XL®
